

BULLDOG

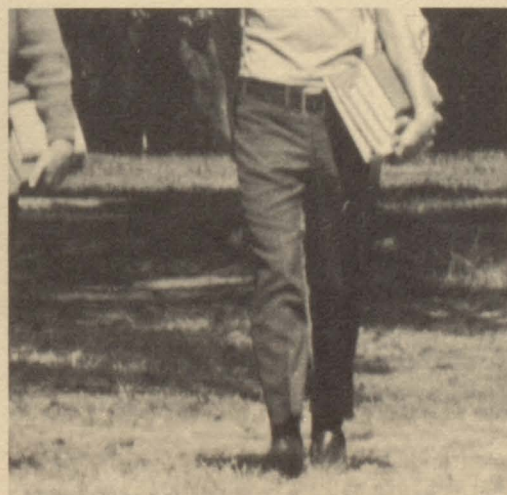

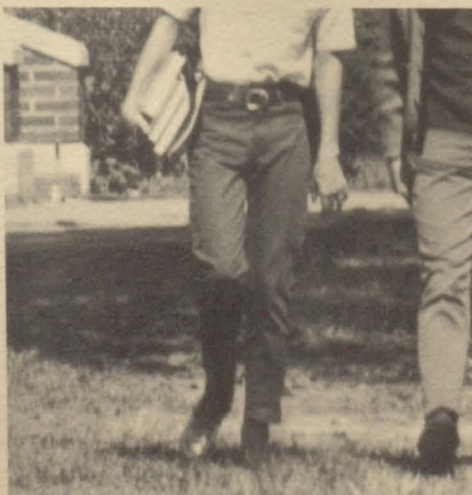

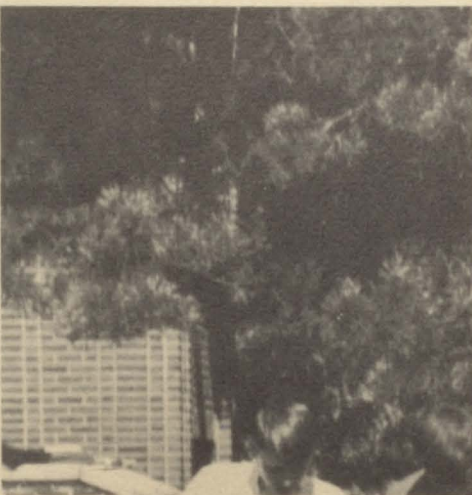

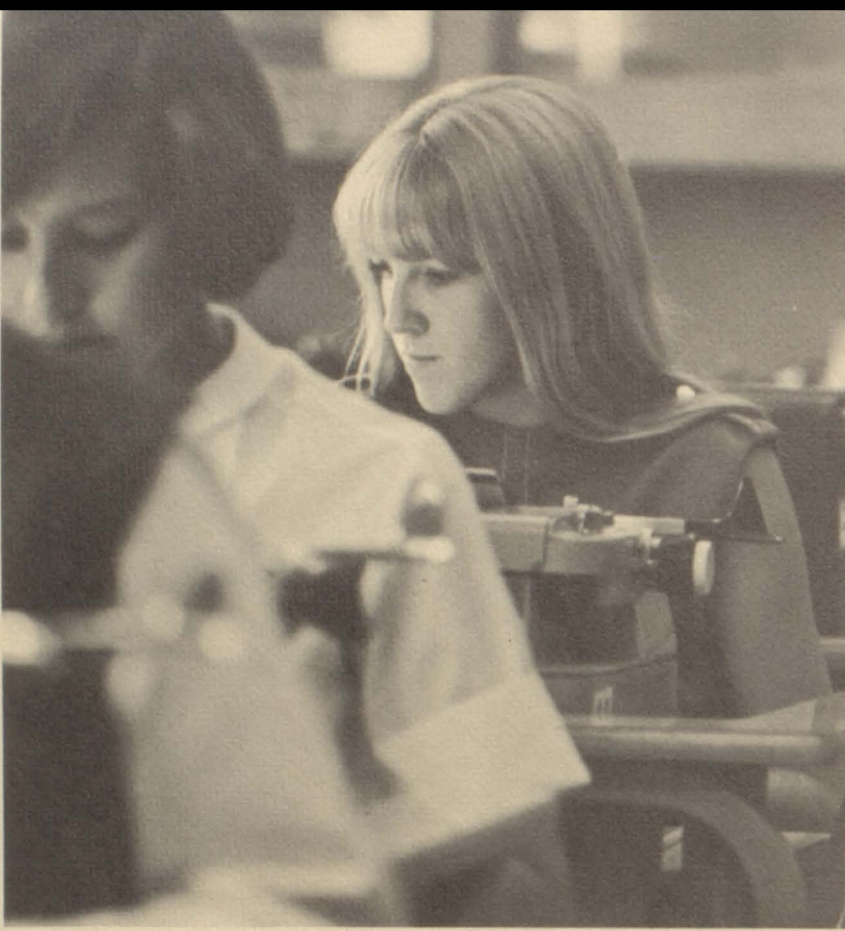

1968

A LOOK AT BATESVILLE— 1968

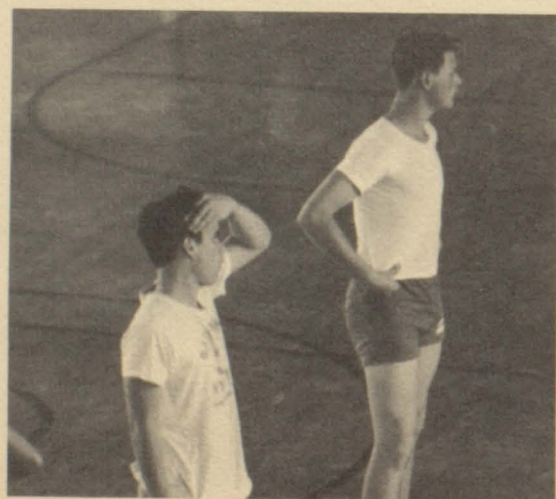

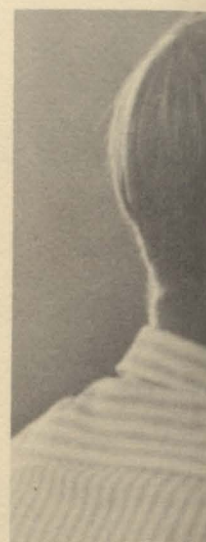

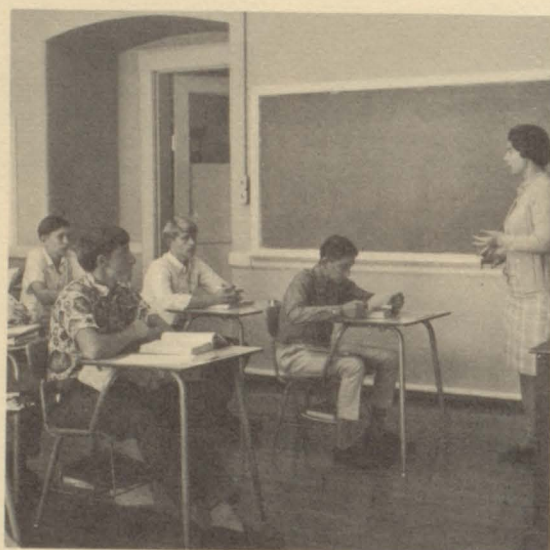

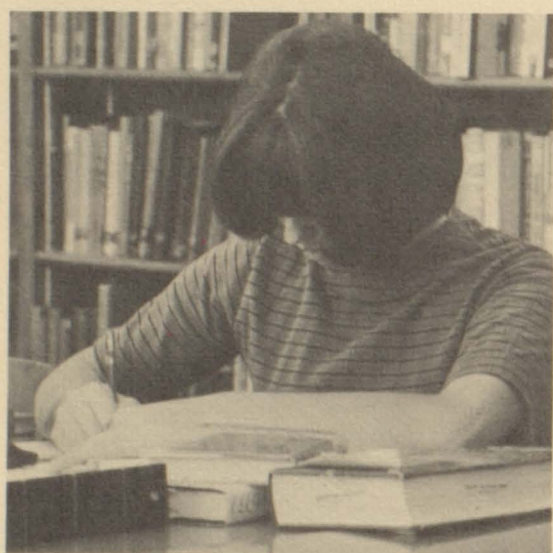

PEOPLE

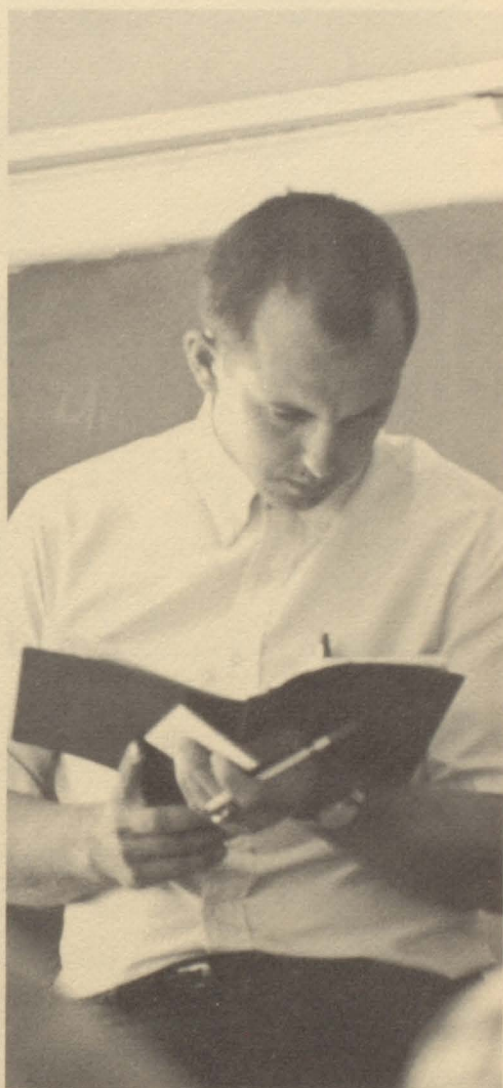

Education at Batesville High School is much more than geometric theorems and term papers. The total experience of education is not only dependent upon, but is enriched by PEOPLE. The message of history given to us is necessarily a communication between people and our knowledge is increased and our world expands as we communicate with others.

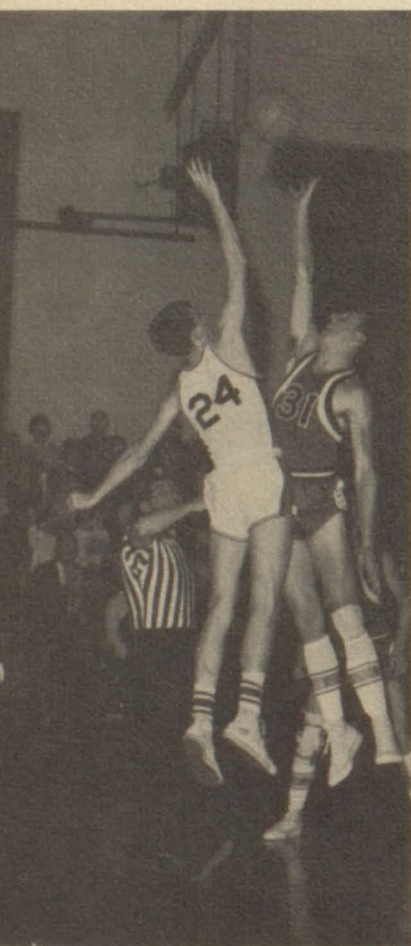

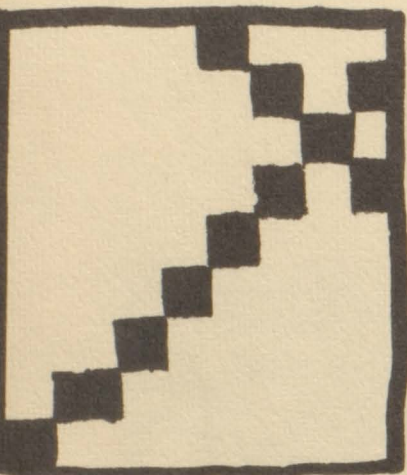

Our association with other people as a part of our education transcends the classroom and everything we do with other people becomes a real and valuable part of our education. A tear, a smile, a shout of joy is as much a part of our education as the Greeks Marching to the Aegean.

Track 4

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research. It also mentions the scope of the study and the methods used.

2. The second part of the report is a detailed description of the experimental work. It includes a description of the apparatus used, the procedure followed, and the results obtained. It also discusses the errors and the limitations of the experiment.

3. The third part of the report is a discussion of the results. It compares the results with the theoretical predictions and with the results of other experiments. It also discusses the implications of the results and the conclusions drawn from them.

4. The fourth part of the report is a summary of the work. It briefly reviews the main points of the report and states the conclusions.

5. The fifth part of the report is a list of references. It includes the names of the authors and the titles of the papers or books referred to in the report.
